

New look and new features! [Learn more](#)

SEAN FAILLA

Data Analyst

I'm interested in exploring an opportunity to leverage existing knowledge and new skills to better understand data. I believe data is a companys most valuable asset aside from people.

In Cell 5 the results of the data should be 4.

In [1]: `2*2`

```
Waiting for a Spark session to start...
Spark Initialization Done! ApplicationId = app-20200714230425-0000
KERNEL_ID = 8ec81e31-c69f-4f9f-a2fc-f64085098784
```

Out[1]: 4

1. Bread
2. Cheese
3. Wine
4. Dessert

Tables	Can	Adjust
TS	RD	DN
1	2	3

For additional reference I am adding the following link to IPython Notebook:

<https://ipython.org/ipython-doc/dev/notebook/notebook.html> (<https://ipython.org/ipython-doc/dev/notebook/notebook.html>)
